Proceeds from this year's tournament will go to: Family Matters

Family Matters is a family-centered organization in the North of Howard neighborhood that seeks to be a catalyst for change – building and strengthening the community through programs that support personal growth and leadership. We strive to be a safe, positive second home where families of diverse culture and experience come together and find equal acceptance, encouragement and challenge. We believe the community must determine its own needs and can meet those needs through a partnership comprising neighborhood residents, staff, volunteers and donors. We encourage respect for self and others and practice three principles of leadership: *1) utilizing peaceful conflict resolution, 2) embracing positive thinking and language and 3) understanding choices and consequences.*
